Bariatric Ready to Go Slide Sheet Pack - with Handles

Bariatric Ready to Go Slide Sheet Pack - No Handles

Bariatric Ready to Go Slide Sheet Pack - No Handles

Slide Sheet Bag

Features & Benefits

Cromptons Healthcare by MIP Slide Sheets are made from Transtex, a specially developed fabric that is silicone coated on both sides to provide a slick, low friction finish for easy patient movement and turning.

The Ready to Go Slide Sheet pack made from this lightweight fabric are designed to accompany the patient during their stay in hospital and then disposed of when the patient has no further use of them. Not intended for laundering. Lightly soiled sheets may be wiped clean using a dilute chlorine based solution or a good quality sterilisation fluid.

Slide sheets are not intended for lifting, and all patient manoeuvers should be accomplished without lifting.

Flat Slide Sheets are used in pairs to offer multi-directional movement, and are full body-length sheets.

The Ready to Go Slide Sheet Bariatric pack comes with or without handles. Featuring handles along the full lengths of three sides for a positive grip and safe patient movement. The handles are attached with flag style stitch patterns to provide a strong secure product for both patient and carer. The handles running along the short edge enables carers to provide additional support to the patients head during repositioning manoeuvres.

PSF200140HN
