FUSION® BED PADS

Features & Benefits

The latest in bed pad technology.

The Fusion® Bed Pad by MIP is a fused, un-quilted bed pad that offers enhanced skin protection by wicking moisture away from the body. Fusion's smooth surface minimises risk of creasing therefore avoiding pressure care issues.

Features:

- Laminated
- Moisture Wicking
- Print to show which way it faces down
- Great absorbency

Read our Blog about the Benefits of Fusion® here.
