SLEEPKNIT BEDDING

An innovation in textile design and processing that is revolutionising healthcare bedding. SleepKnit is a knitted-fitted bedding system that uses a specially constructed four way stretch fabric, combined with a patented bottom sheet design, to produce great results for residents, staff and the laundry.

SleepKnit only requires one person to make the bed and never needs ironing, thus saving time and money.

SleepKnit remains crease free and helps to reduce shear and friction, thus improving resident comfort.

SleepKnit is latex free and contains no elastic.

SleepKnit polyester bedding is Flame Retardant to European Standard EN ISO 12952.

All of the SleepKnit products are designed to withstand thermal disinfection temperatures.

DUVET COVERS

SleepKnit duvet covers are soft and comfortable and finished with an envelope style closure.

	<p>PRODUCT CODE</p> <p>SK3400DC/FR SK3400DD/FR</p>	<p>SIZE</p> <p>Single Bed Double Bed</p>	<p>DESCRIPTION</p> <p>Duvet Cover FR Polyester Duvet Cover FR Polyester</p>

SLEEPKNIT BEDDING

SMART SHEETS

MIP's patented Smart Sheet is a knitted sheet with multi-directional stretch which, unlike conventional woven sheets, means that this one sheet will fit the vast majority of healthcare mattresses, ranging from standard profiling beds to beds with dynamic airflow/pressure reduction mattresses. Within the UK, Smart Sheets are being used on over 85,000 healthcare beds.

	PRODUCT CODE	SIZE	DESCRIPTION
	SK7000/FR SK7000D/FR SK7000 SK7000D	Single Bed Double Bed Single Bed Double Bed	Smart Sheet FR Polyester Smart Sheet FR Polyester  Smart Sheet Polyester/Cotton* Smart Sheet Polyester/Cotton*
			

* Polyester/Cotton Smart Sheets are available in cream and white only.

TOP SHEETS

SleepKnit top sheets have two fitted corners at the base with extra fabric on the width to create the unique toe pleat, assisting in the prevention of pressure sores by increasing space for feet whilst giving excellent comfort and warmth. The two fitted corners of the sheet mean that the sheet can be used for both an open and a closed bed.

BLANKETS AND BEDSPREADS

THERMAL BLANKETS

Thermal blankets provide excellent warmth in a lightweight package. The specially constructed polyester knit remains snag free and provides excellent non-iron, no fold processing advantages. The blanket retains its original shape, brightness and colour even after repeated laundry processes. Flame Retardant to European Standard EN ISO 12952.

	PRODUCT CODE FBL/24	SIZE 168 x 214 cm	DESCRIPTION 1.0kg Blanket
			

COMBISPREAD

CombiSpread is a quality soft surfaced spread which uses specially constructed polyester knit along with innovative FR polyester. It ensures a spread that provides excellent non-iron, no fold processing advantages whilst ensuring great warmth and resident comfort. Flame Retardant to European Standard EN ISO 12952.

	PRODUCT CODE FBSK5477/W	SIZE 140 x 200cm	DESCRIPTION 1.8kg CombiSpread
			

ULTRALINKS BEDSPREADS

UltraLinks Bedspreads deliver lasting patient comfort and warmth. Made from a reversible, soft polyester, UltraLinks tight, smooth weave minimises the risk of snagging and is hemmed for a clean finish. With excellent stain release properties and colour retention, UltraLinks is a long lasting and durable bedspread. Flame Retardant to European Standard EN ISO 12952.

	PRODUCT CODE E49415-66	SIZE 168 x 244 cm	DESCRIPTION 1.6kg UltraLinks Bedspread
			

EVOLUTION TOWELS

EVOLUTION TOWELS

Evolution towels are specially designed to help reduce laundering costs. The unique cotton rich construction has been developed to alleviate snagging and minimise shrinkage. Evolution towels are exceptionally durable as well as luxurious. With proven quicker drying times, Evolution towels help to lower carbon emissions and reduce laundering costs. Each towel is exceptionally colourfast and can be thermally disinfected with confidence.

	PRODUCT CODE	SIZE	DESCRIPTION
	TOW/FACE	29 x 29 cm	420 gsm Face Towel

BED ACCESSORIES

SIDE WEDGES WITH CONNECTING SHEET

Our high density foam filled pair of side wedges with a breathable connecting sheet are designed to prevent residents from falling out of beds with no rails. The side wedges are attached to the connecting sheet using a large hook and loop strip, which is then attached underneath the bed using durable straps and quick release clips. This ensures that these products stay secure whilst on the bed. The connecting sheet can be washed up to 95°C, or simply wiped clean. Flame Retardant to British Standard BS 7177.

	<p>PRODUCT CODE</p> <p>138/W/PU 138/WEDGES 137/W/PU</p>	<p>SIZE</p> <p>20 x 90 cm 20 x 90 cm 90 x 90 cm</p>	<p>DESCRIPTION</p> <p>Side Wedges with Connecting Sheet Side Wedges Connecting Sheet</p>
			

FALL-OUT MATS

Our high density foam filled fall-out mats are designed for use with low level beds to ensure that patients do not injure themselves if they were to fall out of a bed with no rails. Made with a foldable, wipe clean breathable material the fall-out mat is very easy to store and maintain and comes complete with durable carry straps. Flame Retardant to British Standard BS 7177.

FLUID PROOF BAGS

With reference to 5.86 of Decontamination of Linen for Health and Social Care: Management and Provision, the welded seams on our fluid proof bags helps the control of fluids and odours. Ideal for heavily soiled and infected linen, the bags ensure that care is taken to prevent linen or foul seepage escaping from laundry bags and contaminating other items or staff when transporting soiled linen. These bags are made in a neutral colour with a choice of Blue, Green, Red, or White toppers for ease of sorting.

	<p>PRODUCT CODE</p> <p>LB/10/*/UK</p>	<p>SIZE</p> <p>75 x 102 cm</p>	<p>DESCRIPTION</p> <p>Drawstring B-Lock Closure</p>

LAUNDRY BAGS

SAFEKNOT BAGS

SafeKnot is a soiled linen collection bag that utilises a simple and durable web fastening. SafeKnot bags feature a maximum load line inscription to prevent overloading and improve manual handling procedures. SafeKnot bags have an elasticated opening, ensuring that they will fit the majority of soiled linen collection carts.

	PRODUCT CODE	SIZE	DESCRIPTION
	LB/SK/**/UK	70 x 101 cm	Web Closure

SAFEKNOT BAG FASTENING PROCEDURE

STEP 1

Bring handle across top of bag and pass through loop (A) on opposite side.

STEP 2

Grab hold of the second loop (B) and insert handle through it.

STEP 3

Pull handle upward to securely fasten bag.

LAUNDRY BAGS

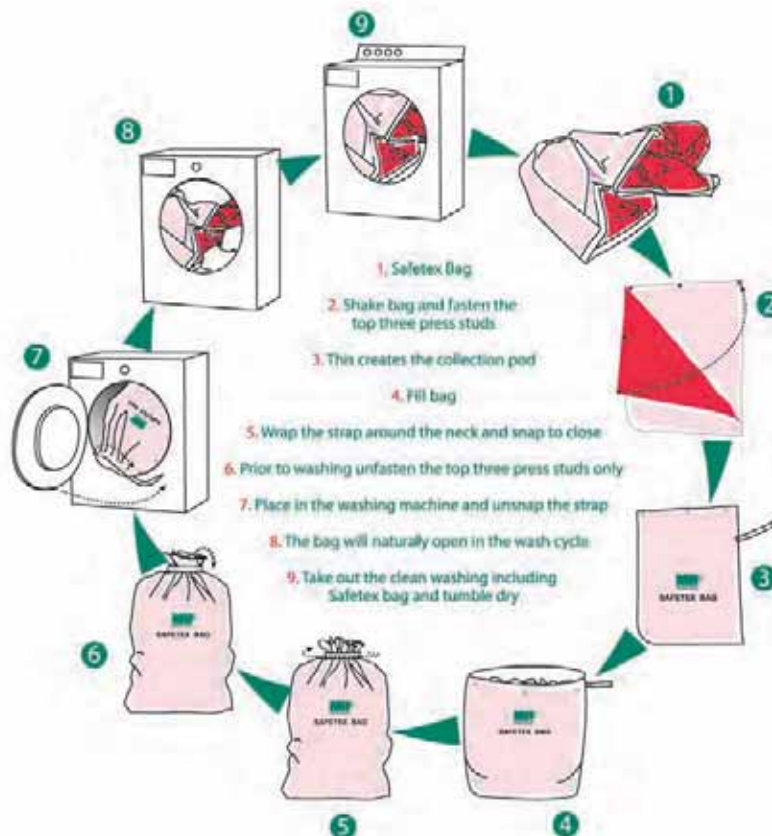

SAFETEX BAGS

Safetex is a re-usable, self opening laundry bag, designed for the collection of heavily soiled and infected linen. Safetex has unique welded seams to ensure the bag is totally fluid and odour proof. Once the Safetex bag is safely inside the washing machine the bag naturally opens. The natural opening minimises manipulation of the bag and prevents exposure of staff to the infectious linen prior to decontamination as per 5.31 of the Dept of Health CFPP, Decontamination of Linen for Health and Social Care: Management and Provision document. Safetex bags are environmentally friendly and a cost-effective alternative to single use disposable red bags, with a lifespan that can withstand multiple processings. Available in Blue or Green (for delicate items that cannot withstand a boil wash) and Red (for infected linen).

BED CHANGING TROLLEY

MIP's Bed Changing Trolley is made with MRSA resistant coated steel and is designed for efficient bed changing. The Bed Changing Trolley is designed with three removable trays with a dividing panel that separates clean and soiled linen. This trolley has a framework to accept single soiled linen bags and comes with a lid to help prevent any cross contamination between the clean and soiled linen.
