

MIP

The Softer Side of Healthcare

Moving & Handling Brochure

OUR MOVING & HANDLING RANGE IS DESIGNED TO MEET THE NEEDS OF PATIENTS, RESIDENTS AND THEIR CARE GIVERS BY SUPPORTING CARE REQUIREMENTS AND RISK ASSESSMENTS.

THIS BROCHURE AIMS TO PROVIDE YOU AT A GLANCE WITH ALL THE KEY INFORMATION YOU NEED TO SUPPORT YOUR PRODUCT CHOICE ALL IN ONE PLACE.

As a global supplier of healthcare textile solutions, MIP provides comfort and efficiency for the healthcare community and its people, based on the belief that a real, vital impact exists within the seamless integration of science and caring around the world.

Slide Sheet Range

CROMPTONS HEALTHCARE BY MIP SLIDE SHEETS ARE MADE FROM TRANSTEX, A SPECIALLY DEVELOPED FABRIC THAT IS SILICONE COATED ON BOTH SIDES TO PROVIDE A SLICK, LOW FRICTION FINISH FOR EASY CARE RECEIVER MOVEMENT AND TURNING.

BOTH PATIENT SPECIFIC AND REUSABLE SLIDE SHEET OPTIONS ARE AVAILABLE. OUR REUSABLE SLIDE SHEETS CAN BE WASHED IN TEMPERATURES UP TO THERMAL DISINFECTION TO ALLOW REUSE WITH DIFFERENT CARE RECEIVERS.

Red Flat Patient Specific Slide Sheet

- Available in standard, extra wide and bariatric sizing.
- Flat Slide Sheets (no handles) are full body-length sheets that offer multi-directional movement.
- Most commonly used as a pair back to back but can also be used as a single sheet folded in half, where needed.
- Suitable for use with a single person, multiple times.

Blue Flat Reusable Slide Sheet

- Available in standard, extra wide and bariatric sizing.
- Flat Slide Sheets (no handles) are full body-length sheets that offer multi-directional movement.
- Most commonly used as a pair back to back but can also be used as a single sheet folded in half, where needed.
- Suitable for hospital laundering using standard hospital laundry guidelines HSG(95)18.

Red Flat Patient Specific Slide Sheet with Handles

- Available in standard, extra wide and bariatric sizing.
- Flat Slide Sheets are full body-length sheets that offer multi-directional movement.
- Most commonly used as a pair back to back but can also be used as a single sheet folded in half, where needed.
- Featuring handles along the full lengths of three sides for a positive grip and safe patient movement.
- Suitable for use with a single person, multiple times.

Blue Flat Reusable Slide Sheet with Handles

- Available in standard, extra wide and bariatric sizing.
- Flat Slide Sheets are full body-length sheets that offer multi-directional movement.
- Most commonly used as a pair back to back but can also be used as a single sheet folded in half, where needed.
- Featuring handles along the full lengths of three sides for a positive grip and safe patient movement.
- Suitable for hospital laundering using standard hospital laundry guidelines HSG(95)18.

Red Tubular Patient Specific Slide Sheets

- Tubular Slide Sheets are available in a wide range of sizes.
- Tubular Slide Sheets are formed by sewing the fabric into a continuous tube.
- A web hanging loop is provided to allow the tube to be kept with the patient at all times.
- Suitable for use with a single person, multiple times.

Blue Tubular Reusable Slide Sheets

- Tubular Slide Sheets are available in a wide range of sizes.
- Tubular Slide Sheets are formed by sewing the fabric into a continuous tube.
- A web hanging loop is provided to allow the tube to be kept with the patient at all times.
- Suitable for hospital laundering using standard hospital laundry guidelines HSG(95)18.

Red & Yellow Ready-to-Go Patient Specific Slide Sheet Pack

- Pack of 2 Flat Patient Specific Slide Sheets supplied in a Slide Sheet Storage Bag.
- 1x Red Flat Patient Specific Slide Sheet with Handles - handles along the full lengths of three sides for a positive grip and safe patient movement.
- 1x Yellow Flat Slide Sheet (no handles).
- 1x Slide Sheet Storage Bag.
- Suitable for use with a single person, multiple times.

Patient Specific Slide Sheet Glove

- Patient Specific Slide Sheet Glove is made from the same material as our Cromptons Healthcare Patient Specific Slide Sheets.
- Suitable for use in a number of applications including small repositioning tasks, skin unloading, as a clothes dressing aid and to aid sling fitting.

Poly-glide Flat Slide Sheet by MIP

Poly-glide is a Flat Patient Specific Slide Sheet offering multi-directional movement. It is produced in a tough polypropylene with a low friction PU coating on the non-printed side.

- Available in standard and bariatric sizing.
- The carton contains 100 Slide Sheets and acts as a neat convenient dispenser.

Moving & Handling Accessories

- Extension Handles for use with JC100 Transfer Sheet and Flat Slide Sheets with Handles.
- Slide Sheet Storage Bag for convenient storage of Slide Sheets.

Swift® In-Bed Repositioning System

AFFORDABLE AND EASY-TO-USE, SWIFT® FROM MIP, IS A WASHABLE, IN-BED REPOSITIONING SYSTEM THAT IS ALSO DISCREET AND COMFORTABLE FOR THE CARE RECEIVER.

THE SWIFT® SYSTEM FEATURES 2 ELEMENTS, THE SWIFT® SLIDER AND THE ULTRASLIDE BOTTOM SHEET, WHICH WORK TOGETHER TO SUPPORT REPOSITIONING AND TURNING MANOEUVRES IN BED.

THE DURABLE FABRIC IS SUITABLE FOR HOME, RESIDENTIAL AND COMMERCIAL LAUNDERING, INCLUDING THERMAL DISINFECTION.

UltraSlide® Bottom Sheet

- Replaces your standard bottom sheet, available in standard and bariatric sizing.
- The stretch SleepKnit® construction means the UltraSlide® Bottom Sheet is flexible enough to fit most healthcare mattresses including profiling beds & alternating air pressure reducing mattresses.
- Carbon fibres integrated into the centre panel reduces static build up.
- Can also be used in isolation of the Swift® Sliders for more independent care receivers.

Swift® Slider - Standard Length

- L123 x W186cm - shoulder-to-hip coverage.
- Suitable for standard and bariatric application.
- Its low friction backing allows staff to reposition a person safely and easily when used in conjunction with an UltraSlide® Bottom Sheet.
- The Swift® Slider's thin profile will not impair the performance of alternating air pressure reducing mattresses and can therefore remain on the bed when not in use (tucked in), making it readily available when needed.

Swift® Slider - Long Length

- L200 x W205cm - head-to-toe coverage.
- Suitable for standard and bariatric application.
- Its low friction backing allows staff to reposition a person safely and easily when used in conjunction with an UltraSlide® Bottom Sheet.
- The Swift® Slider's thin profile will not impair the performance of alternating air pressure reducing mattresses and can therefore remain on the bed when not in use (tucked in), making it readily available when needed.

Swift® Slider - with Handles

- L200 x W243cm - head-to-toe coverage with handles to attach to a hoist if needed.
- Suitable for standard and bariatric application.
- Its low friction backing allows staff to reposition a person safely and easily when used in conjunction with an UltraSlide® Bottom Sheet.
- The Swift® Slider's thin profile will not impair the performance of alternating air pressure reducing mattresses and can therefore remain on the bed when not in use (tucked in), making it readily available when needed.

Cromptons Healthcare by MIP Transfer Sheets

OUR RANGE INCLUDES PATIENT SPECIFIC AND RESUABLE TRANSFER SHEETS OPTIONS TO SUIT A VARIETY OF NEEDS WITHIN THE CARE ENVIRONMENT.

JC100 Patient Specific Transfer Sheet

- Available in standard and bariatric sizing.
- Produced in a strong fluid repellent non-woven polypropylene to provide a cost effective solution for patient transfers.
- Features five ergonomic handles cut into each side to facilitate positive grip.

Reusable Transfer Sheet

- Available in full body length, extra wide size.
- Produced in Transtex fabric without silicone coating, which makes the transfer sheet ideal for operating theatre use.
- Six long horseshoe handles make easy patient transfer possible whilst maintaining correct posture.
- The durable fabric is suitable for hospital / commercial laundering.

When undertaking any moving and handling tasks:

1. Make sure you have done your own risk assessment and that the technique being used is appropriate.
2. Or follow the handling plan from somebody who has done a risk assessment.
3. Check all equipment for any signs of wear and tear prior to use.
