

“I think that these sheets are wonderful. My mobility isn’t great but I can move a bit on them. They are warm, soft and comfortable. The sheets do not form hard ridges like standard sheets. They are also much quicker for the Nurses”.

“

“WOW! What lovely sheets! These are so much better to lay on and the nurses can make a bed much faster now”.

“

“A great improvement on the loose cover sheets, which slipped off every time the bed angle was raised and lowered. The fitted sheets stay on no matter how often the head is raised and lowered”.

“

“Superb idea: I don’t know why wards never used these sheets before”.
