

Ready-to-Go: Patient Specific Slide Sheet Pack

Yellow on the
bed & slide
with the red

We understand that time is often limited in care environments, and slide sheets may not always be immediately available when needed. The Ready to Go Pack helps solve this by providing flat slide sheets stored in a dedicated slide-sheet bag that can be hung at the end of a patient's bed, ensuring it is always close at hand.

The slide-sheet bag includes space to record the patient's name and bed location, helping reduce the risk of cross-contamination between patients. The reminder "yellow on the bed and slide the red" reinforces the correct practice of using flat slide sheets as a pair.

STYLE #	DIMENSIONS	DESCRIPTION
LP004-RY07	200×100cm	With Handles
LP004-RYNH	200×100cm	Without Handles
